RE.: RECOMMENDATION

Dear Sir/Madam

It is my pleasure to recommend Ruslin Interior Architects. Karen Rudd and Belinda Gillies, owners of the company, were personally involved in the planning and executing of our project, which included space planning, designing and construction.

Their project management was impressive and they stayed very close to the time schedule and delivery dates. Problems were met with immediate attention and solutions and communication were ever forthcoming.

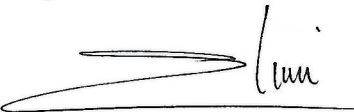

Their professional conduct and excellent planning ensured relieve for the stressful time that accompanies an office move. Their office design was spot on and staff felt right at home.

Ruslin kept to the budget by cleverly dealing with out of budget items and by working smartly and creatively.

I would not only recommend Ruslin's services but certainly use them again in future.

Should you require further information, please do not hesitate to contact the undersigned.

Regards

ESTELLE CURRIE
Office Manager
